

CLEANER H

Damp wipes for cleaning hands

WHERE TO USE

To clean traces of fresh adhesive and sealant from hands and surfaces.

Some application examples

Removal of traces of fresh single component, polyurethane adhesives and fresh two-component epoxy-polyurethane adhesives.

TECHNICAL CHARACTERISTICS

Cleaner H is a non-woven fabric tissue soaked in a cleaning solution, used to remove a variety of contamination from hands.

Cleaner H wipes are a quick, convenient system for cleaning hands on site when water is not available.

The detergent solution used to saturate the wipes contains vitamin E and aloe vera, to protect your hands and leave a pleasant smell.

HOW TO USE

Open the tub, remove the seal and pull out the first wipe through the opening on the inside of the cover. Rub your hands with the wipe until all dirt is removed. After use, close the tub.

PACKAGING

Plastic tubs containing 80 damp wipes (20x30 cm).

STORAGE

Cleaner H may be stored for 24 months from the date of production in its original packaging in a damp-free area and at a maximum temperature of +30°C.

SAFETY INSTRUCTIONS FOR PREPARATION AND APPLICATION

Cleaner H is not considered dangerous according to the current regulation regarding the classification of mixtures. It is recommended to wear protective gloves and goggles and to take the usual precautions for the handling of chemicals. For further and complete information about the safe use of our product please refer to the latest version of our Safety Data Sheet.

Components compliant to Regulation EC N. 648/2004:
